

Table Frame ( Side View )

This is just a drawing of the rough framing for the table.  
 You can either wrap the legs with plywood. If you use 3/4"  
 Plywood on the legs the end pieces should be 1" X 8" X 21 1/2"  
 You can use plywood to encase the 2" X 6" side walls if you  
 want the table base to have the same finish as the table.

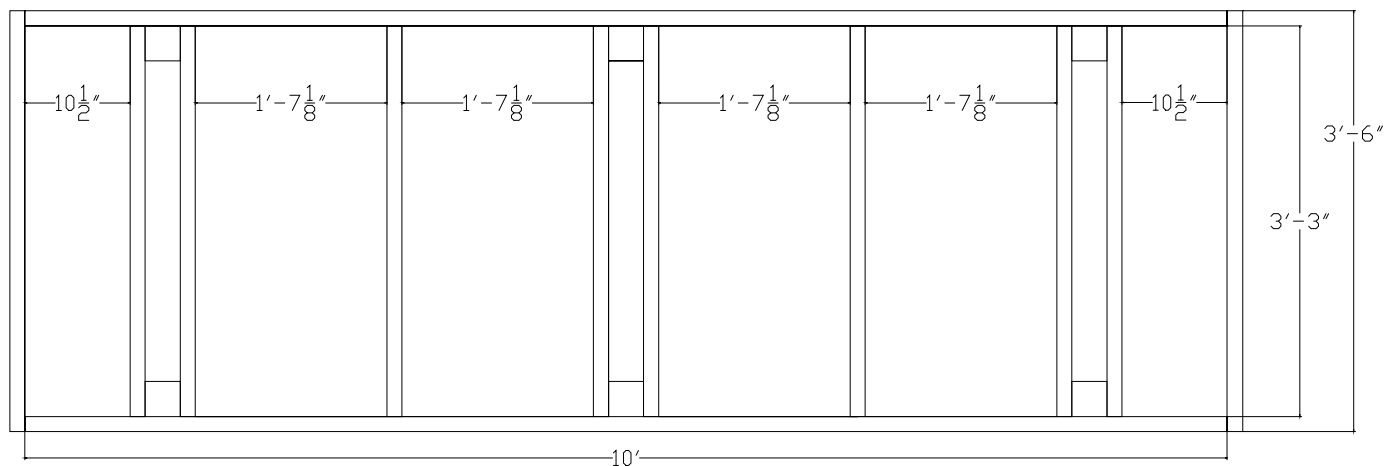

Table Frame Detail ( Top View )

Out Side Frame is 2" X 6" lumber. Sides are 10 feet long. Ends are 3' 6" long.

Legs are 4" X 4" X 27" Lumber. ( 2- 4" X 4" X 8 feet needed )
